# Pillar 3 – Capital Adequacy and Risk Disclosures

*Quarterly Update as at 30 June 2013*

**Rabobank Australia Limited**  
ABN 50 001 621 129 AFSL 234 700

[www.rabobank.com.au](http://www.rabobank.com.au)

Rabobank Australia Limited (“the Bank”) is an Authorised Deposit-taking Institution (“ADI”) subject to regulation by the Australian Prudential Regulation Authority (“APRA”) under the authority of the Banking Act 1959.

In accordance with the Australian Prudential Standard 330 (“APS 330”), financial institutions are required to disclose prudential information. A subset of this information is disclosed quarterly.

This document is unaudited, however it has been prepared using information that is consistent with information otherwise published or supplied to APRA.

## Background of Basel II and Implementation of Basel III

The Basel II Capital Accord principles took effect in Australia from 1 January 2008. The framework comprises of three pillars:

- Pillar 1: Minimum Capital Requirements
- Pillar 2: Supervisory Review Process
- Pillar 3: Market Discipline

In December 2010, the Basel Committee on Banking Supervision (“BCBS”) published a discussion paper on banking reforms. These major reforms are to be phased in from 1 January 2013 to 1 January 2019.

In September 2012, APRA published final standards for the implementation of the Basel III capital reforms in Australia. APRA has adopted a more conservative approach than the minimum standards published by the BCBS and a more accelerated timetable for implementation.

The Bank commenced reporting its regulatory disclosures to APRA under the requirements of Pillar 1 from 1 January 2008 using the Standardised Approach. The Bank also adopted the Basel III measurement of regulatory capital effective from 1 January 2013.

The Bank implemented the Pillar 2 requirements including documentation of its Internal Capital Adequacy Assessment Process (“ICAAP”) with the latest version approved by the local Board in March 2013.

The Chief Executive Officer attests that the disclosure meets the requirements of APS310 Audit and Related Arrangements for Prudential Reporting. Disclosure controls and procedures have been designed and implemented to effectively manage prudential reporting risk.

## Scope of Application

The Bank establishes Level 1 for regulatory (APRA) reporting purposes. The Bank is a solo entity, therefore does not have any subsidiaries, Level 2 entities.

- Level1: Standalone basis (“Solo”)
- Level2: The consolidation of the Bank and all its subsidiary entities other than non-consolidated subsidiaries (“Consolidated”)

## Context

The Rabobank Group (“Group”) gained accreditation from the De Nederlandsche Bank (“DNB”), Group’s Home Regulator, to use the Advanced Internal Ratings Based Approach (“AIRB”) for credit risk and the Advanced Measurement Approach (“AMA”) for operational risk from 1 January 2008.

The Rabobank Group gained DNB accreditation to use the AIRB for credit risk from 31 December 2008 for the Bank's Rural portfolio. The Rural lending portfolio is a significant majority of the Bank's lending by exposure.

The Bank currently remains on the Standardised Approach for Credit, Market and Operational risk for APRA regulatory reporting.
