

How to guide

Logging in to Rabobank Agribusiness Banking (Internet Banking)

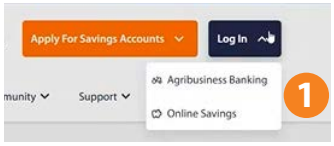

This guide explains how to log in to Agribusiness Banking using one of the available authentication methods:

- Secure Code
- QR Code
- RSA Token

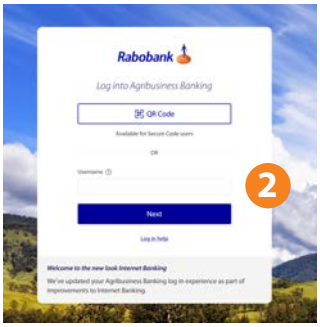

MORE INFO Please refer to more information about Secure Code at www.rabobank.com.au/support/agribusiness-banking-secure-code

Logging in to Agribusiness Banking (Internet Banking) using Secure Code

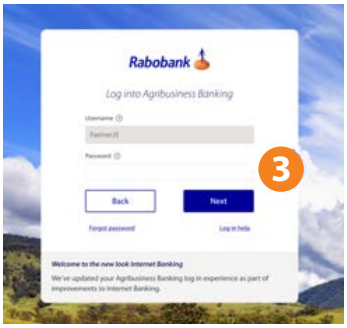

Step 1:
Open the Agribusiness Banking website, www.rabobank.com.au

Step 2:
If you are logging in using **Secure Code**, enter the username for the account you wish to access.

Step 3:
Enter the password for this username and select ***'Next'***.

MORE INFO **FAQ:** How can I register for Secure Code?

The images shown in this guide depict screens from an iOS device. There are slight visual variations on Android devices. The screens may change over time. The minimum supported version of operating systems is the current and last two major versions of each operating system. This is in line with official support by Apple and Google.

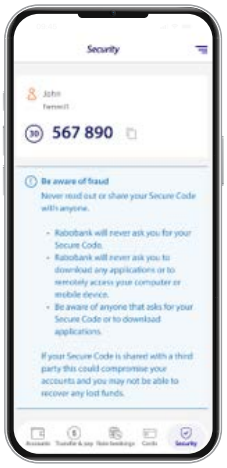

Step 4:
Open the Rabobank Agribusiness AU app and select ***'View Secure Code'***.

Step 5:
Authenticate yourself using Face ID or fingerprint biometrics (if set up) or your 6-digit PIN. Once logged in to the Mobile app, navigate to the **Security** tab to view the 6-digit code.

Step 6:
Return to your Agribusiness Banking log in screen.

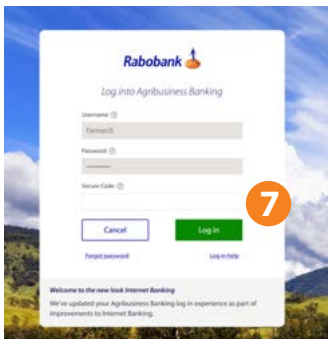

MORE INFO

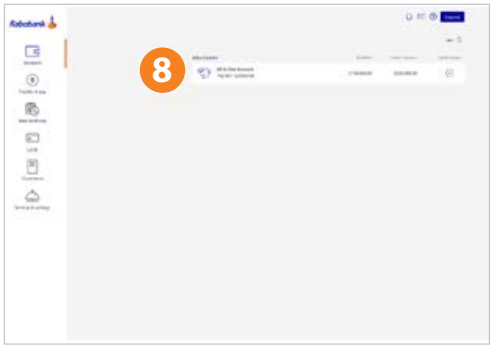

FAQ: How do I download the Rabobank Agribusiness AU app to access the Secure Code generator?

Note: This code periodically refreshes and a new code is generated. There is a countdown showing time remaining before the Secure Code changes.

Step 7:
Enter the 6-digit code from the Mobile app into the Secure Code field and select ***'Log in'***.

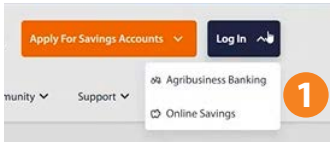

Step 8:
